Visuals have the ability to transcend language barriers, and visual strategies like sketchnotes can harness the power of various types of learners all at once. This interactive session presents how and why visual note-taking can help students process information and take ownership of their learning. Participants leave with strategies that engage students, improve comprehension, and enhance learners' success in writing throughout all content areas. Learn how to introduce sketchnoting to students and how sketchnotes can...

- support & develop language & literacy
- actively engage learners
- improve focus
- increase memory
- provide a creative release
- build from students' funds of knowledge
- support culturally responsive pedagogy

Valentina Gonzalez is a content creator and educational consultant for Seidlitz Education. She is also a co-author of *Reading & Writing with English Learners: A Framework for K-5*. During her 21 years in public education, Valentina has served as a classroom teacher, an ESL co-teacher and pull-out teacher, a district ESL facilitator, and a district professional development specialist for teachers of English learners. Through these roles she supported students and educators and coached teachers on sheltered instruction and ESL strategies. Her personal experience as an immigrant from Yugoslavia and language learner fuels her desire to advocate for English learners and support teachers and administrators in their important work with ELs.
